Live the Legacy™

In the life of an outdoorsman are experiences that simply can't be explained in words. The tingles up your back as a flight of teal whistle over your boat in the morning haze, or the excitement of turning a wary group of geese into your spread. You simply need to experience it to appreciate and understand...

At Beavertail™ we understand, because just like you we have been there. It is this time in the field and passion for the outdoors that drive us to design and build products that go beyond “good enough” and enhance this precious time that we spend in the great outdoors.

Look under the surface and you will see innovation and thoughtful design built into every Beavertail™ product we offer. So take some time to review our product line and you will see what sets us apart, and the reason why we will always remain a step ahead.

No compromises. No shortcuts. No excuses. *Live the legacy™*

CUSTOM ALUMINUM BOATS

At Beavertail™ we're building a legacy one boat at a time.

In this one size fits all world, we are proud to go against the grain and build a boat that is specific to your needs, not what a production line thinks you should have.

At the heart of every Beavertail boat you'll find features that other manufacturers call extra, but we just call them standard equipment.

- 
- **Standard Features:** All welded, durable 100 gauge aluminum hull, stern and sidewall construction
 - Two 10' water resistant gun boxes for stowing firearms, fishing rods, and extra gear
 - Drop floor in stern for securing batteries and fuel tank
 - Flat diamond plate floors and forward deck for an ultra stable operating platform
 - Heavy duty rub rail sidewall cap
 - Exclusive forward tapered front deck to run water back out the bow and away from you and your gear
 - Patent pending Performance Flotation Pods™
 - Built in interior tubing for accessory wiring
 - Foam filled floor, front deck, & pods for extra flotation and load off-set
 - 24" sidewalls
 - Front and rear exterior grab handles
 - Interior mounted Heavy duty tie down loops
 - Super-durable Olive-drab paint for a non-reflective wear resistant finish.

If you can dream it, we can build it. Your hunting boat should meet your personal usage needs as well as your hunting style. We've provided the basics, tell us what's next. To get you started take a look at our list of popular options at the back of this catalog. Not seeing what you want? No worries, that's what custom is all about. Tell us what you are looking for, and we'll make your dream a reality!

Custom Boat Size are Available in any Combination of the Following Dimensions.

14' - 20' long • 48" - 72" wide

It's Your Boat, Tell Us What You Want!

BOAT BLINDS

Beavertail Blinds™ are “The Original Flip Over Blind” and have numerous exclusive features that truly set us apart. The only gunnel to gunnel clearance frame in the industry, our blind has large vegetation pockets (not loops), closable shooting holes and easily attaches to your boat without drilling holes, this blind has the features and quality you expect and demand.

Beavertail™ full size boat blinds are designed not only for exceptional concealment, but also superior functionality. The blinds attach to your boat with our exclusive telescoping frame system, which means no holes to drill, and attachment / detachment is a snap. These blinds provide more than enough clearance for everyone in the boat no matter which seat you are in, and are designed to work with both backwater motors and standard outboards. The blind also lays directly on the side rail which means unobstructed access to gun boxes and accessories.

The blind exterior features vegetation pockets, more vegetation equals more concealment! Finally, these blinds also double as a roomy ground blind by exchanging the attachment arms for the optional accessory stake kit. You can literally go from boat to field in a matter of minutes. Blinds are available in Mossy Oak® Shadow Grass Breakup®.

Features: Weighs approximately 47 lbs and stands 27” above the gunnels • 500 Denier Cordura with nylon stitching • Exclusive tool-less telescoping frame and attachment system • Exterior vegetation pockets • Frame constructed of galvanized steel and marine grade aluminum • Available in 4 sizes

1400 Series Blind: Fits boat 14' to 15' long • Top beam width 47” to 59” • Three closable shooting holes
#93460 - Mossy Oak® Shadow Grass® #93458 - Breakup®

1600 Series Blind: Fits boat 15' to 17' long • Top beam width 60” to 72” • Three closable shooting holes
#93464 - Mossy Oak® Shadow Grass® #93462 - Breakup®

1800 Series Blind: Fits boat 17' to 20' long • Top beam width 72” to 86” • Four closable shooting holes
#93468 - Mossy Oak® Shadow Grass®
#93466 - Breakup®

2200 Series Blind: Fits boat 19' to 23' long
• Top beam width 86” to 96”
• Five closable shooting holes
#93474 - Mossy Oak® Shadow Grass®
#93471 - Breakup®

NEW!

Stealth 1200™ or Stealth 2000™ Boat Blind

At Beavertail™, we know blinds. It all began with “the Original Flip-Over Blind” which has set the benchmark in the industry for rapid deploy, fold over boat blinds.

this blind can literally be set up or knocked down

in seconds and folds down completely out of the way,

which means no hassling with poles or tucking in extra material. Inside the blind

you will find more than enough head-room for you and a partner to not only sit

comfortably, but make the shot when it counts. **Features:** Fold over aluminum

frame construction • Shooting holes on top and side • Rapid no hassle deployment

or knock down • Roomy interior for you and your gear • Dog doors on both end

• Built in vegetation straps • Available colors and patterns: Mossy Oak® Shadow Grass® #0775 - Mossy Oak® Shadow Grass® #0752 - Breakup®

Live the Legacy™

PERFORMANCE PODS

If you are like most people, you probably didn't pay a lot of extra attention in physics class. Luckily for us, the guys in our R&D department did. Beavertails revolutionary Flotation Pod technology changes the game forever. To obtain maximum motor efficiency you need the longest plane possible.

Our Flotation Pods not only increase the plane of your boat, but also offer up to 200 lbs. of extra flotation. This extra flotation helps to off-set the negative performance often associated with the extra weight of a conventional 4-stroke air-cooled motors. What does this mean for you? How about getting up on plane faster than you ever have before, or running through shallow water that bottoms out competitive boats? These Flotation Pods from Beavertail™ will truly revolutionize the performance of your boat and motor.

Sizes

- #97100 - **Small:** for boats with 30" to 42" bottoms
- #97164 - **Medium:** for boats with 44 " to 48" bottoms
- #97165 - **Large:** for boats with 54" to 96" bottoms

Please call for proper sizing for your specific application

**Revolutionary,
New Flotation
Technology!**
(Patent Pending)

Features: Up to 200 lbs. of extra flotation. • Eliminates the negative performance associated with the weight of 4-stroke air-cooled motor. • Eliminates tail drag associated with shallow water running. Boats float virtually flat and draft considerably less, giving you almost unlimited capabilities in shallow water. • Dramatically increases out of the hole take off. • Funnels water to the propeller in the shallowest of environments, giving you the ability to start out and get on plane in conditions like you never have before. • Eliminates virtually all transom back splash. • No longer will you have to worry about over-turning your mud motor; Performance Pods will act as a stop to help eliminate uncontrolled spins. • Reduces engine laboring. • Reduces fuel consumption. • Compliments engine power trim. • Engineered not only for strength, but also can be used as a built-in dog ladder and sitting platform.

*** Professional Installation
Recommended for Accessory Kits.**

SURFACE DRIVE MOTORS

Sometimes the simplest solution is the best solution. They're called "Backwater Motors". We call them our "no questions asked, get you anywhere and back, mud flingin', weed eatin', rock smashin' workhorses". The power plant is only the beginning. Beavertail has partnered with the best names in the industry to bring you durable, reliable power, with names like Vanguard™, Kohler™ and Honda™. We've done the legwork to match each engine to the ideal application so you know you are getting the most optimized set-up available, no matter which motor you choose.

NEW!

SURFACE DRIVE

The wait is finally over... As surface drive motors continue to grow in popularity, we've taken the concept and catapulted it to the next level creating a surface drive backwater motor that lives up to the Beavertail legacy. With a geometrically reinforced all aluminum frame and drive housing, frame weight is minimized to deliver an outstanding power to weight ratio. We've spent countless hours on the water, pushing and perfecting the frame and drive system to ensure you are getting the most optimized surface drive available. The bottom line; as with the entire line of Beavertail backwater motors, we've made no compromises, taken no shortcuts, and made no excuses...

**Surface Drive Motors are Available In the Following Sizes:
40 hp, 35 hp, 27 hp.**

* Available for multiple transom heights.

Live the Legacy™

LONG SHAFT MOTORS

Frame geometry? Torsional strength? Drag coefficients? Don't sweat it, we've already done the math. We've spent years perfecting our frames and components through rigorous field testing, diligent lab work, and most importantly, listening to the feedback from our family of Beavertail™ owners. Our legendary motors are the 4x4s of boat motors. Our design philosophy has strayed considerably from the pack, and our refusal to conform is why we set trends instead of follow them. With models ranging from the lightweight 6 HP to the 40 HP beast, we've got a long shaft backwater motor to suit your application.

BEAVERTAIL 6

The lightweight champ

The 6 HP is the smallest in the Beavertail line, making it the ideal choice for applications where you want to keep weight to a minimum. But despite its lightweight status, it delivers big on performance.

BEAVERTAIL 13

Straight forward and capable

The 13 Beavertail is a very capable and easy to operate motor that really delivers. It's an excellent motor for small to medium boats, and is also available in a lightweight aluminum framed model for use on sneak boats.

BEAVERTAIL 24

A Little More With Less

The 24 hp power plant provides a bit more power than our popular Beavertail 20 and weights 4 lbs less. This translates into a slightly better power to weight ratio.

BEAVERTAIL 20

The motor that does it all
The 20 HP Beavertail is the perfect all-around motor.
It's extremely tough, capable and user friendly, and it's also economical. This makes it a popular choice for those who don't need the extra high horse power, yet are serious about getting where others can't.

BEAVERTAIL 27

Battle tested durability and power
The 27 HP Beavertail is known as the "Iron Horse" because of its legendary toughness and brute strength. It has proven time and again that it will get you where you need to go, and back again.

BEAVERTAIL 35

The ultimate in performance
The 35 HP Beavertail is the epitome of what a Backwater motor should be. Nothing compares to the legendary power and durability of this motor. If you need the ultimate in speed and backwater capability, the 35 is for you.

PROPELLERS

Performance Series X Propeller
This is the top of the line propeller. It is specifically designed for the combination of high speed and aggressive mud performance. The Series X propellers are designed with blades specifically shaped and negatively raked to reduce any chance of weed buildup around the propeller hub. These props are standard on all Beavertail motors.

For more Motor Specifications, see page 21.

SWIVEL SYSTEM

Beavertail's Innovative 360° Swivel Mount (with True Spring Pin Safety Stops) is another example of applied owner feedback. When it comes to product development, Beavertail™ is already a leader among backwater motor manufacturers. In response to a frequent customer request - and extensive competitive analysis - Beavertail now offers a 360-degree swivel mount with the only true safety stop on the market.

SNEAK BOATS & ACCESSORIES

Beavertail has a full line of sneak boats to match your hunting style and pocket book. Whether you are looking for a lightweight platform for your backwater motor or a quiet paddle out to "the spot", Beavertail has you covered.

AMBUSH™

As its name suggests, this boat is perfect for getting in quick and lying low. The low profile sleek design make it perfect for navigating the shallows or taking it out on the big water, and the durable fiberglass composite construction will withstand virtually anything you can throw at it. Another innovative feature of the Beavertail Ambush™ is the built in transom with integrated rear flotation pods. The Ambush™ from Beavertail™ is sure to set the standard in fiberglass sneak boats for years to come.

Features: Durable fiberglass composite construction • Integrated flotation pods • 7 hp motor rating • Grab handle, removable seat and cockpit cover • Length: 13 feet 10 inches • Weight: Approximately 120 lbs. • Available colors and patterns: #7004 - Marsh Brown #7000 - Grey

Rear Flotation Pods and Transom

Live the Legacy™

Ambush™ Blind Doors

The flip open accessory blind doors feature an aluminum tube frame, high strength Mossy Oak® Shadow Grass® cover material, and easily attaches or detaches from the boat in seconds.

- Solid, easy attach aluminum frame construction
- Durable 600 denier slip on cover material
- Available colors and patterns: #7014 - Mossy Oak® Shadow Grass® #7010 - Grey

STEALTH 1200™ AND 2000™

Beavertails most popular line of sneak boats.

Designed for one person or two, with an optional 2nd seat available. Both boats feature a twin-hull catamaran style bottom giving them amazing stability, yet they float in only 4-5 inches of water! With unmatched stability, the Stealth 1200 and 2000 have been field-tested and granted a seal of approval by the North American Hunting Club!

Both the Stealth 1200 and Stealth 2000 Feature Our Twin Hull Catamaran Style Bottom for Exceptional Stability.

Both Feature: 100% Custom Compounded polyethylene construction • 1-Piece , roto-molded design • Twin-hull, catamaran style bottom for exceptional stability • Cup & thermos holder
• Non-skid floor • 5-year warranty • Side storage
• **Optional additional seat, motormount, dog ramp, paddle, cover, and oar kit available**

Stealth 1200

1200 Features: Air-filled inner structure
• Decoy slots on both sides • Single interior gun rack & shell holder • Contoured seat • Side-Storage
• Water-tight storage compartments, front & rear • Handles on both ends

1200 Dimensions:

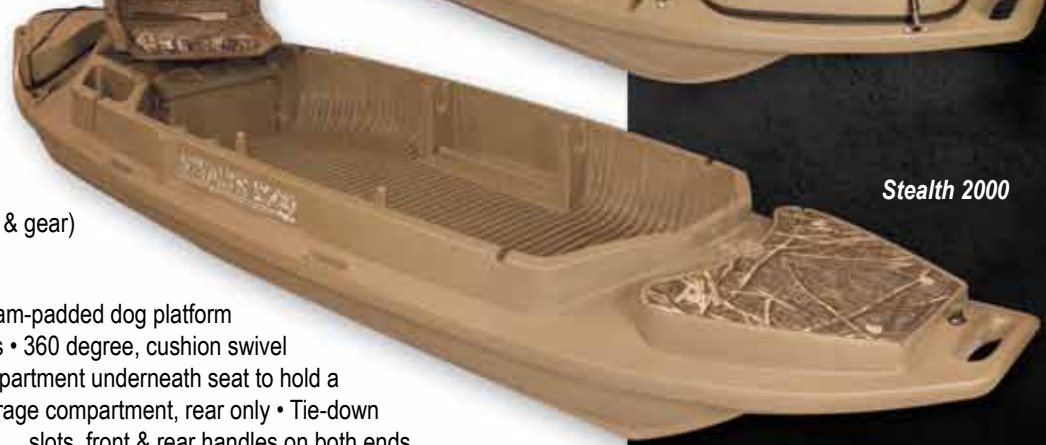

Overall Dimensions: 12' L x 44" W x 17" D

Cockpit Dimensions: 8' L x 27" W x 13" D

Weight: 100 LBS

Weight Capacity: 550 LBS (Motor, people, & gear)

Part: #0724 Marsh Brown

Stealth 2000

2000 Features: Foam-filled inner layer • Foam-padded dog platform
• Double interior gun racks & shell holders • 360 degree, cushion swivel seat with folding backrest • Storage compartment underneath seat to hold a marine battery • Water-tight storage compartment, rear only • Tie-down slots, front & rear handles on both ends

2000 Dimensions:

Overall Dimensions: 12' L x 44" W x 15" D

Cockpit Dimensions: 8' L x 36" W x 10" D

Weight: 120 LBS

Weight Capacity: 550 LBS (Motor, people, & gear)

Part: #0624 Marsh Brown

Dog Ramp

100% rugged polyethylene construction. Tough, durable dog ramp hooks on the handle and swivels up and out of the way!
#0764 - Marsh Brown - One size fits both the Stealth 1200 and 2000.

SNEAK BOATS & ACCESSORIES

FINAL ATTACK™

The Final Attack is arguably the most versatile sneak boat you will ever own. With an ultra low profile, this boat flattens out in extremely short vegetation and has ample room for both you and your gear. With a built in transom, you can easily attach a motor for an effortless trip to your destination. With built in low profile wheels, the Final Attack is also a cinch to move across dry land, and makes an excellent pit blind or portable field blind.

- Features:** 100% custom compounded polyethylene construction • 1-Piece, roto-molded unique, multi-purpose, low-profile design • Foam-filled inner structure front and rear for extra flotation
- Transom for motor - 2hp rating • Molded-in tow rope holes • Wheels for easy transport
 - Optional removeable pit cover (sold separately) • 5-year warranty
 - Optional BackRest, Pit Cover, and Quick Cover available.

Overall Dimensions:

8' L x 44" W x 14" D

Cockpit Dimensions:

4'10" L x 26" W x 13" D

Weight: 75 LBS

Weight Capacity:

420 LBS

Part: #0824 - Marsh Brown

Pit Cover

Optional removeable pit / storage cover for your Final Attack boat / blind. 100% custom compounded polyethylene construction. #0834 Marsh Brown

Quick Cover

Tough, durable, 900 Denier waterproof & windproof polyester. Strong & light aluminum frame. Flip-open doors allow for fast action. Low-profile disappears in very little cover. Vegetation straps for easy concealment. Quickly attaches to your Final Attack boat / blind.

#0865 - Marsh Brown

Live the Legacy™

Mossy Oak® Shadow Grass®

Snap in Wheels

Makes transporting boat and gear easy.

BackRest

Custom compounded polyethylene. Provides day-long back support and comfort while in your Final Attack boat / blind. #0844 - Marsh Brown

PHANTOM™

As a waterfowling kayak, the phantom is purpose built to overcome the challenges often found when hunting out of smooth bottomed conventional kayaks. Due to the catamaran style hull, this platform is extremely stable to support the additional weight of hunting gear and the extreme lateral movements that accompany hunting from a kayak, such as shooting your gun or tossing decoys.

- Features:** 100% custom compounded polyethylene construction
- 1-Piece , roto-molded design
 - Twin-hull, catamaran style bottom for exceptional stability
 - Foam-filled inner structure for incredible strength
 - Contoured seat
 - Molded-in foot rests
 - Molded-in handles, both ends
 - Water-tight storage compartment, rear only
 - Non-skid floor
 - 5-year warranty

Overall Dimensions: 9' L x 32" W x 13" D
Cockpit Dimensions: 6'3" L x 29" W x 9" D
Weight: 55 LBS
Weight Capacity: 360 LBS
Part: #0924 - Marsh Brown

FIELD BLINDS FULL FRAMED

PREDATOR XCS PACKAGE

(Includes the #0524 Predator Field Blind and the #0535 Predator XCS. Not available for the #0584 Predator XL Field Blind.)

PREDATOR™

If you want the comfort and low profile attributes of a pit blind, but also require the ability to move from spot to spot, the Predator portable pit blind is for you. Weighing a mere 29 lbs. (or 34 lbs. for the XL) this field is easily dragged from one set-up to the next, and can hold your gear while transporting. The birds are going to land where they want, it's a fact of life, and sometimes the "sweet spot" is covered by water or mud. Instead of settling for the dry edge, the Predator allows you to drop right in on the action and stay dry and comfortable all day long.

PREDATOR:

Dimensions: 78" L x 35" W x 11" H **Weight:** 29 LBS **Part:** #0524 - Marsh Brown

PREDATOR XL:

(features larger dimensions & roomier shoulder/elbow areas)

Dimensions: 79" L x 42" W x 12" H
Weight: 34 LBS **Part:** #0584 - Marsh Brown

Storage Space beneath back rest for extra gear.

Features: 100% Custom Compounded polyethylene construction • Spring-Loaded Back Rest for immediate action • Storage Space beneath back rest for extra gear • Foam-Filled Head Rest • Shoulder and Elbow areas • Molded-In Compartments in shoulder/elbow areas for holding smaller items (Predator XL only) • Molded-In Stabilizing Pockets • Flush-Mounted Shell Holder • Molded-In Custom Foot Locks • 3-Year Warranty • Optional Predator XCS (Xtreme Cover System) • Optional Predator Package (not available for the Predator XL)

PREDATOR XCS (Extreme Cover System):

(Designed for use on the #0524 Predator & #0584 Predator XL Field Blinds)

Setup Dimensions: 98" L x 48" W x 8" H

Stored Dimensions: 78" L x 38" W x 8" H **Weight:** 16 LBS

Pattern: #0535 - Mossy Oak® Shadow Grass®

XCS Features: Extremely durable and waterproof 900 Denier polyester fabric • Aircraft aluminum square tubing frame....

5-times stronger than round tubing frames

• Strongest Mossy Oak® Shadow Grass® frame on the market • Flip-open lid with 2 openings & unobstructed view...for you and your dog • Stubble straps for adding natural vegetation • Side & end skirting for better concealment • Easy access flagging holes • 1-Year Warranty

Live the Legacy™

NEW! **GUNNER™**

The new Gunner™ field blind offers all of the premium features that you have come to expect from Beavertail™, with the added benefit of an assisted lift backrest, and easy slide locking fold up / fold down modularity. The patent pending spring loaded backrest features a spring loaded base that assists as you move up or down, so you can concentrate on lining up the shot and less on getting into position when it's "go" time.

- Features:** Lift assist backrest made of durable polyethylene • Slide lock deployment, no pins • 600 denier material and durable aluminum frame construction • Waterproof base • Flagging holes and dual purpose black/grey flagging door flaps • Built in vegetations straps • Backpack style carry harness • Available patterns:

 - #0448 - Corn Belt™

Mossy Oak® Shadow Grass®

Corn Belt™

FIELD BLINDS FULL FRAMED

DESTROYER™

The innovative modular design of the Destroyer field blind makes it a cinch to deploy in the field. What really makes this blind stand out is the sled base. All components easily fold down into the sled with ample room for additional gear. Instead of carrying it on your back, you have the ability to pull it behind you, and utilize the sled base to transport decoys, guns, and whatever else you take with you into the field, minimizing trips back to the truck.

Setup Dimensions: 96" L x 30" W x 17" H

Stored Dimensions: 57" L x 30" W x 6" H

BACKWATER MOTOR SPECS

BEAVERTAIL SURFACE DRIVE MOTORS

40 HP SURFACE DRIVE

35 HP SURFACE DRIVE

27 HP SURFACE DRIVE

ENGINE	DRIVE TRAIN	FRAME
V-Twin Cylinder, Horizontal Shaft, OHV, Cast Iron Cylinder Liners, Aluminum Block, 4 Cycle Command PRO	Synchronous Belt Drive, Electric Clutch, Polished, Ground, Balanced Electroless Plated Drive Shaft	Aircraft Grade Aluminum Frame and Housing.
35 HP Vanguard Electric start - performance cam. Digital spark advance module. 993cc	Synchronous Belt Drive, Electric Clutch, Polished, Ground, Balanced Electroless Plated Drive Shaft	Aircraft Grade Aluminum Frame and Housing.
27 Kohler. Electric start - performance cam. Digital spark advance module 27 BHP @ 3600 rpm	Synchronous Belt Drive, Electric Clutch, Polished, Ground, Balanced Electroless Plated Drive Shaft	Aircraft Grade Aluminum Frame and Housing.

BEAVERTAIL LONG SHAFT MOTORS

40 HP LONG SHAFT

Available Summer 2009

35 HP LONG SHAFT

27 HP LONG SHAFT

24 HP LONG SHAFT

20 HP LONG SHAFT

13 HP LONG SHAFT

6 HP LONG SHAFT

V-Twin Cylinder, Horizontal Shaft, OHV, Cast Iron Cylinder Liners, Aluminum Block, 4 Cycle Command PRO	Patent pending, stainless steel removable bearing assemblies. Upper and lower stainless removable caps and housings. Polished, ground, balanced and electroless nickel plated drive shaft.	Uni-seamless, robotics welded, aluminum frame. All frame parts CNC milled and laser cut for alignment accuracy.
35 HP Vanguard Electric start - performance cam. Digital spark advance module. 993cc	Patent pending, stainless steel removable bearing assemblies. Upper and lower stainless removable caps and housings. Polished, ground, balanced and electroless nickel plated drive shaft.	Uni-seamless, robotics welded, aluminum frame. All frame parts CNC milled and laser cut for alignment accuracy.
27 Kohler. Electric start - performance cam. Digital spark advance module 27 BHP @ 3600 rpm	Patent pending, stainless steel removable bearing assemblies. Upper and lower stainless removable caps and housings. Polished, ground, balanced and electroless nickel plated drive shaft.	Uni-seamless, robotics welded, aluminum frame. All frame parts CNC milled and laser cut for alignment accuracy.
24 Honda Electric start 670 cc	Patent pending, stainless steel removable bearing assemblies. Upper and lower stainless removable caps and housings. Polished, ground, balanced and electroless nickel plated drive shaft.	Uni-seamless, robotics welded, aluminum frame. All frame parts CNC milled and laser cut for alignment accuracy.
20 Kohler. Electric start - performance cam. Digital spark advance module. 20 BHP @ 3600 rpm	Patent pending, stainless steel removable bearing assemblies. Upper and lower stainless removable caps and housings. Polished, ground, balanced and electroless nickel plated drive shaft.	Uni-seamless, robotics welded, aluminum frame. All frame parts CNC milled and laser cut for alignment accuracy.
13 Honda Electric start / Backup pull start 390 cc	Patent pending, stainless steel removable bearing assemblies. Upper and lower stainless removable caps and housings. Polished, ground, balanced and electroless nickel plated drive shaft.	Uni-seamless, robotics welded, aluminum frame. All frame parts CNC milled and laser cut for alignment accuracy.
6 HP Kohler Electric start / Backup pull start 175 cc	Patent pending, stainless steel removable bearing assemblies. Upper and lower stainless removable caps and housings. Polished, ground, balanced and electroless nickel plated drive shaft.	Uni-seamless, robotics welded, aluminum frame. All frame parts CNC milled and laser cut for alignment accuracy.

BOAT OPTIONS

Live the Legacy™

Item #	Description:	Item #	Description:
97191	Custom Camo Paint	93306	15" Front Deck Extension (with storage compartment)
93301	Navigation Lights (switched front and rear with panel)	Call for info	28" Front Deck Extension (with storage compartment)
93335	Swamp Headlights (switched 1 spot, 1 flood with panel)	Call for info	28" Front Deck Extension (with storage compartment)
93336	Bilge Pump (switched)	Call for info	48" Front Deck Extension (with or without storage compartment)
93303	3 Interior Lights (switched)	93345	Trolling Motor Mount System (with wiring and plate)
93337	12 Volt Plug-in (can be located in front or rear)	93315	Wider Gun Box (each)
93302	Removable Stand Up Bar	93346	Live Well in Starboard Wider Gun Box
93304	Seat Pedestal Bases (welded into boat floor)	91041	10' Aluminum Push Pole
93338	Camouflage Seat (hydraulic pedestal)	91048	10' Push Pole Mounting System (installed)
93348	Center Console with Steering Wheel and Cables	93320	Bow Shooting Platform
93349	Side Console with Steering Wheel and Cables	Call for Quote	
93305	15" Front Deck Extension		

PROP	FINISH	WGT.	TRAILERING
High Performance 2 Blade Stainless Steel	Flat Marine Powder Coat (Olive Drab), Zinc Rich Undercoat Primer Powder Coat	262 lbs (approx)	Conventional Style Power Tilt and Trim to Raise Prop and Shaft Above Trailer Plane
High Performance 2 Blade Stainless Steel	Flat Marine Powder Coat (Olive Drab), Zinc Rich Undercoat Primer Powder Coat	262 lbs (approx)	Conventional Style Power Tilt and Trim to Raise Prop and Shaft Above Trailer Plane
High Performance 2 Blade Stainless Steel	Flat Marine Powder Coat (Olive Drab), Zinc Rich Undercoat Primer Powder Coat	230 lbs (approx)	Conventional Style Power Tilt and Trim to Raise Prop and Shaft Above Trailer Plane
Performance Series prop. Stainless steel with cad/cam computer technology for precision accuracy. Super weedless, heavy cupped.	Flat marine powder coat (Olive Drab). Zinc rich undercoat primer powder coat	225 lbs	Tailshaft swings into the boat. Exclusive 360-degree swivel with true safety stop spring pin.* Rubber mounted, engine adjustment bolts for motor trimming capabilities
Performance Series prop. Stainless steel with cad/cam computer technology for precision accuracy. Super weedless, heavy cupped.	Flat marine powder coat (Olive Drab). Zinc rich undercoat primer powder coat	220 lbs (approx)	Tailshaft swings into the boat. Exclusive 360-degree swivel with true safety stop spring pin.* Rubber mounted, engine adjustment bolts for motor trimming capabilities
Performance Series X 9x6 or 9x7 prop. Stainless steel with cad/cam computer technology for precision accuracy. Super weedless, heavy cupped.	Flat marine powder coat (Olive Drab). Zinc rich undercoat primer powder coat	174 lbs (approx)	Tailshaft swings into the boat. Exclusive 360-degree swivel with true safety stop spring pin.* Rubber mounted, engine adjustment bolts for motor trimming capabilities
Performance Series X, 9 x 7 prop. Stainless steel with cad/cam computer technology for precision accuracy. Super weedless, heavy cupped.	Flat marine powder coat (Olive Drab). Zinc rich undercoat primer powder coat	170 lbs (approx)	Tailshaft swings into the boat. Exclusive 360-degree swivel with true safety stop spring pin.* Rubber mounted, engine adjustment bolts for motor trimming capabilities
Performance Series X 9x5 prop. Stainless steel with cad/cam computer technology for precision accuracy. Super weedless, heavy cupped.	Flat marine powder coat (Olive Drab). Zinc rich undercoat primer powder coat	174 lbs (approx)	Tailshaft swings into the boat. Exclusive 360-degree swivel with true safety stop spring pin.* Rubber mounted, engine adjustment bolts for motor trimming capabilities
Performance Series X 8x4 prop. Stainless steel with cad/cam computer technology for precision accuracy. Super weedless, heavy cupped.	Flat marine powder coat (Olive Drab). Zinc rich undercoat primer powder coat	Std 145 lbs. Alum 125 lbs	Tailshaft swings into the boat. Exclusive 360-degree swivel with true safety stop spring pin.* Rubber mounted, engine adjustment bolts for motor trimming capabilities
Performance Series X 7x4 prop. Stainless steel with cad/cam computer technology for precision accuracy. Super weedless, heavy cupped.	Flat marine powder coat (Olive Drab). Zinc rich undercoat primer powder coat	70 lbs	Tailshaft swings into the boat. Exclusive 360-degree swivel with true safety stop spring pin.* Rubber mounted, engine adjustment bolts for motor trimming capabilities

Item #	Description:	Item #	Description:
93365	Bow Shooting Platform (36" x 62")	97100	Performance Pods - Small (Fits 14', 15', and 16' boats)
93322	Battery	97164	Performance Pods - Medium (Fits 17' and 18' boats)
93358	Battery box	97165	Performance Pods - Large (Fits 20' boats)
93323	Set-back Plate		Trailer (galvanized, 1,500 pound capacity, rubber roller guide-ons, jack stand)
93316	20" Transom		Trailer (galvanized, 2,450 pound capacity, rubber roller guide-ons, jack stand)
93360	Removable Transom Riser		for 18' x 60" and 20' boats
93324	Fuel Tank		Teflon Strips (Pair) on trailer bunks (.5" x 3" x 8')
91210	Dog Ladder	\$179.00	Skid Plate / Axle Protector
93361	Stake-off Loops (each)		Break-away Tongue
93326	Ice Breaker Corner Guards		Spare Tire and Mount
93328	28" Sidewalls for 48" - 60"		
91066	Keels (each)		
93381	.125 Gauge Bottom (must have if ordered without Keels)		
93321	Winch Bracket and Wiring Harness (mounted on front of boat)		
93356	Warn Works 3700 Winch (winch, remote control, fairlead roller)
